2.1 Checking out articles

You can access the checked-out items via the main menu or the list menu.

To check out one or more items, click the "Add" button:

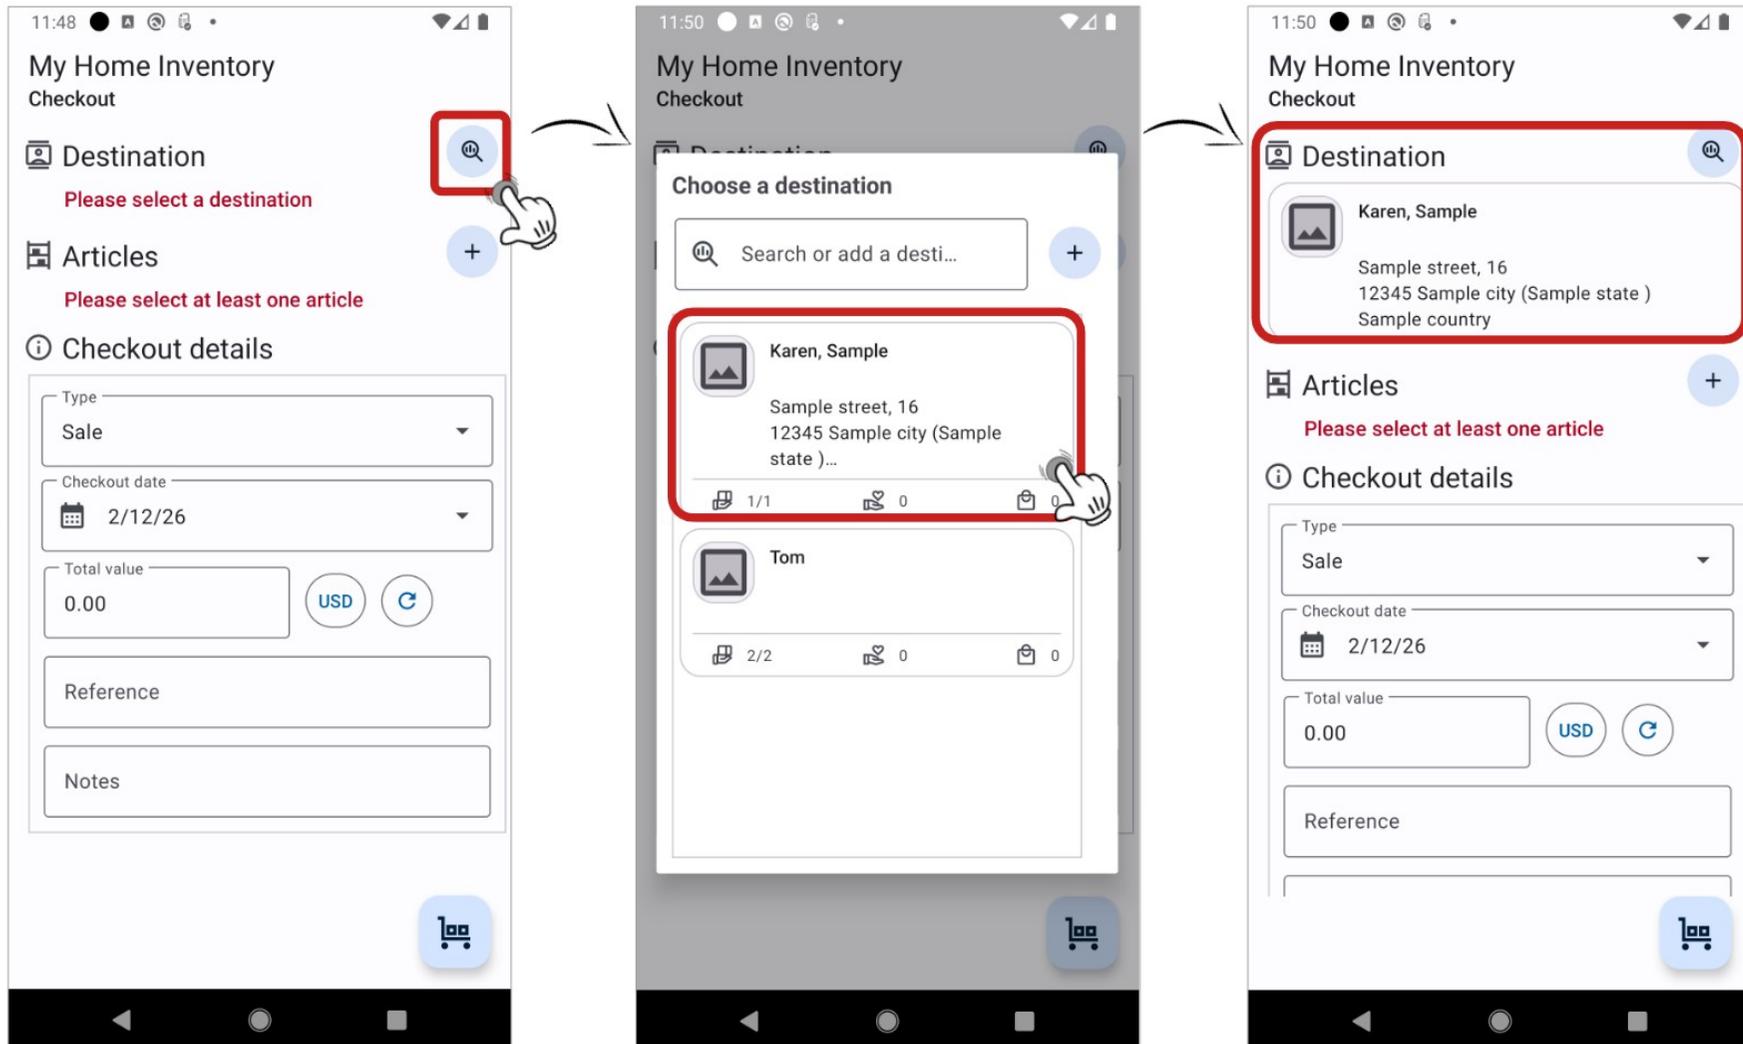

To create a checkout, a recipient and at least one item must be selected. Additional details can also be specified.

The screenshot shows the 'My Home Inventory Checkout' screen on a mobile device. At the top, the status bar shows the time 11:48 and various system icons. The app title 'My Home Inventory' and the screen title 'Checkout' are displayed. Below the title, there are three main sections: 'Destination', 'Articles', and 'Checkout details'. The 'Destination' section has a magnifying glass icon and a red error message 'Please select a destination'. The 'Articles' section has a plus icon and a red error message 'Please select at least one article'. The 'Checkout details' section contains several input fields: a dropdown menu for 'Type' set to 'Sale', a date picker for 'Checkout date' set to '2/12/26', a text input for 'Total value' set to '0.00' with currency selection buttons for 'USD' and 'C', a text input for 'Reference', and a text input for 'Notes'. A shopping cart icon is located at the bottom right of the screen.

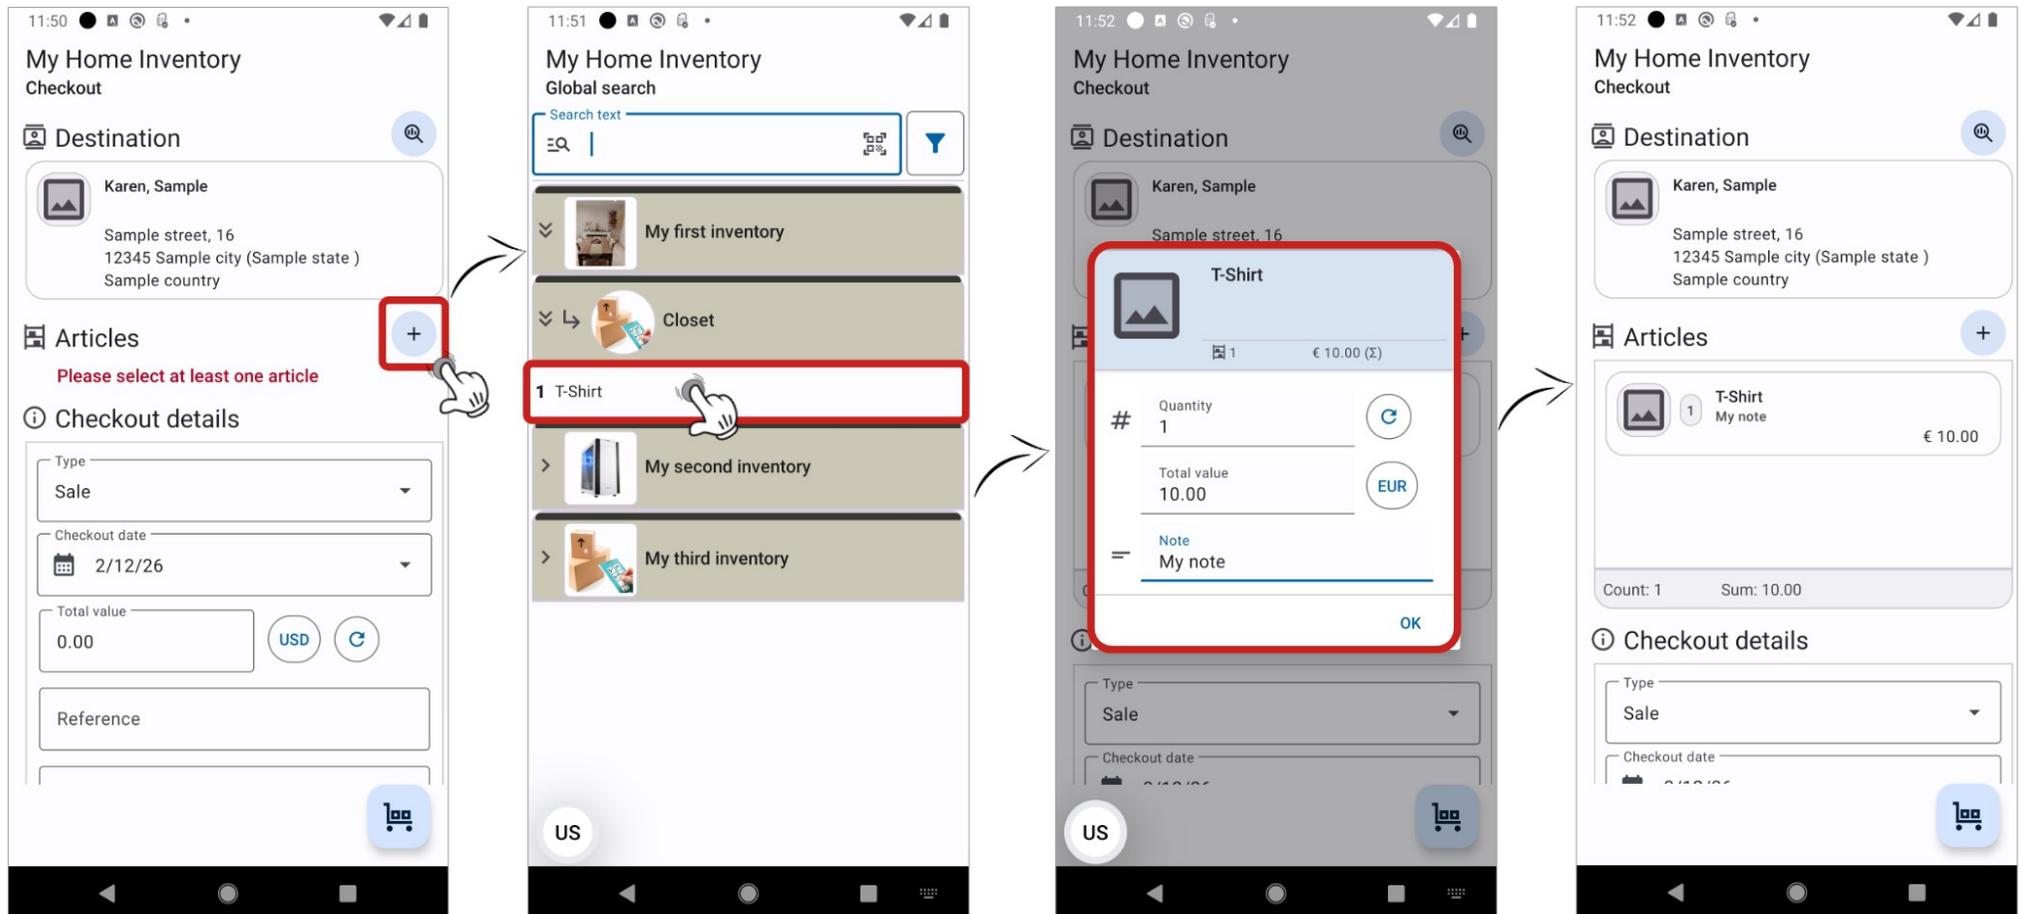

2.1.1 Choosing a destination

Each checkout requires a destination. Select one destination from the destination list.

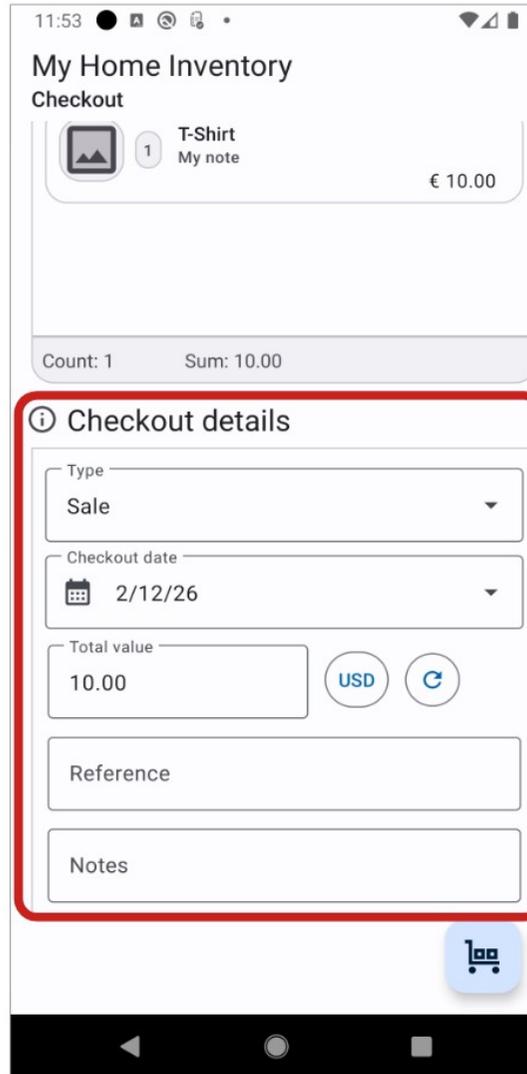

2.1.2 Choosing one or more articles

To add an article to the checkout, select it using the "+" symbol. Then enter the quantity, the price, and optionally a note. Multiple items can be added to a single checkout. To edit an article, swipe left or click on it. To delete it, swipe right.

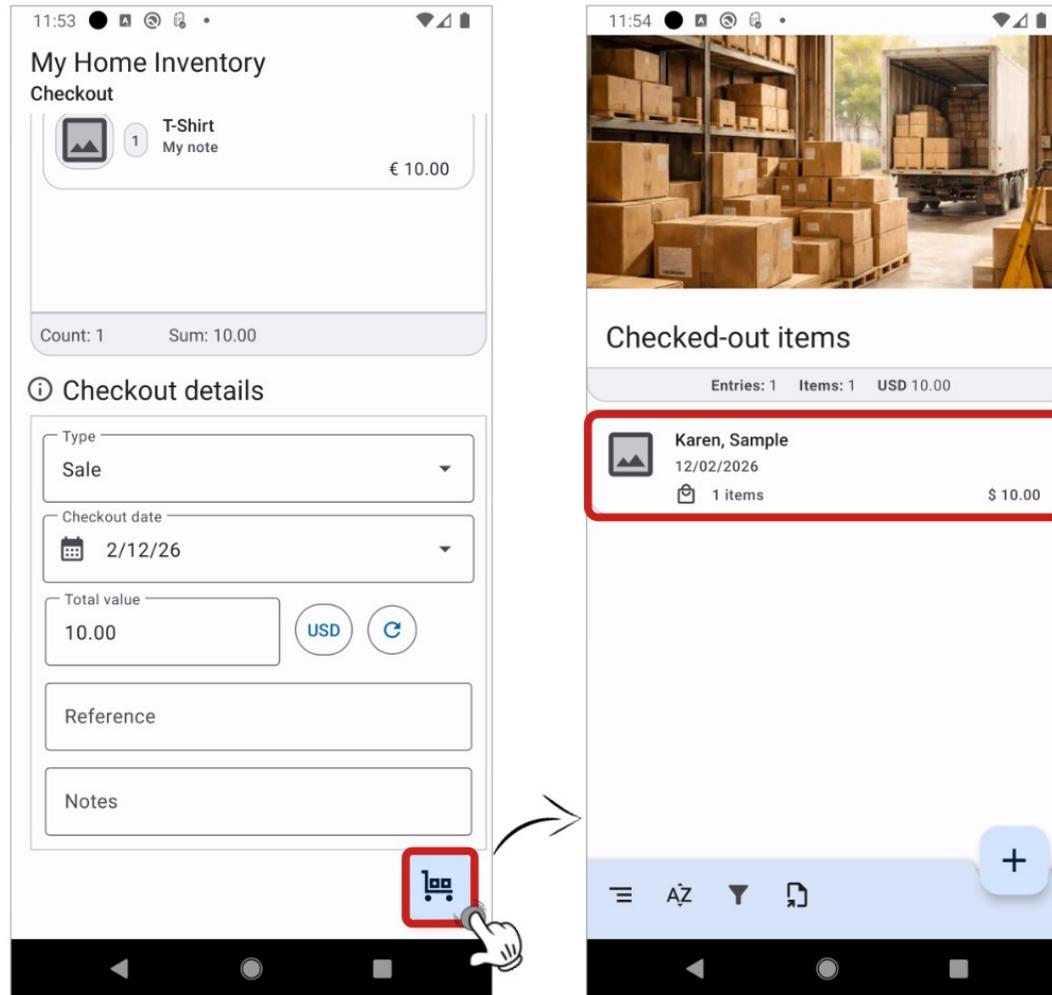

2.1.3 Additional checkout information

Additional information can be added to the checkout. The total value can also be overwritten or calculated here.

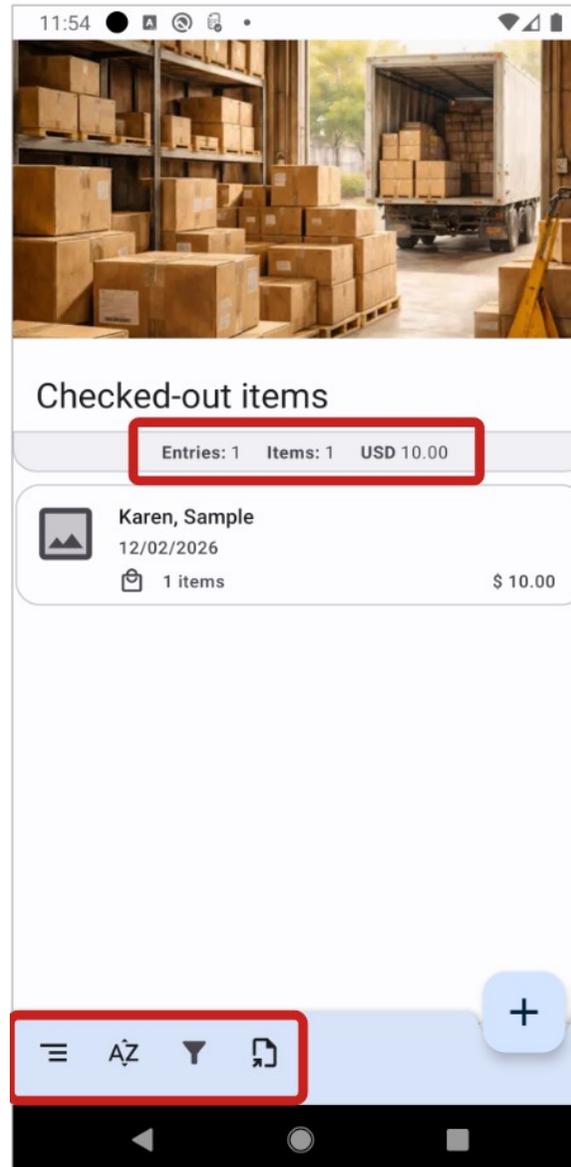

To save your checkout, click on the "Trolley" button.

2.1.4 List of all checkouts

The overview displays all existing checkouts. The list can be grouped or sorted by recipient, filtered, and exported as an Excel list.

2.2 Other improvements and corrections (bug-fixes)

This version includes the following improvements/fixes:

| N.º of issue | Description of the improvement/fix issue |
|--------------|---|
| #657 | Backup – automatic backups abort with the message that the existing backup comes from a different device. |
